SUMMARY

AI/ML Engineer with 1.5+ years of experience building production AI systems, **agentic workflows**, **OCR pipelines**, and cloud-native applications in healthcare. Experienced with **Python**, **FastAPI**, Scikit-learn, TensorFlow, **Azure**, **GPT-4o**, Claude, **RAG pipelines**. Strong foundation in data engineering, LLM integration, and deploying scalable AI solutions that drive measurable business impact.

EXPERIENCE

Associate Software Engineer

Infinite Computer Solutions

Oct 2024 – Present

Chennai, India

- Architected Zen AI, a production OCR and LLM pipeline using Azure Blob Storage, FastAPI, and GPT-4o mini for healthcare fax processing.
- Designed secure PHI extraction, storage, and retrieval workflows supporting end-to-end agentic document processing.
- Built validation pipelines and structured extraction prompts to improve accuracy across diverse document formats.
- Led SSIS to Azure Data Factory migration testing across 10+ pipelines and automated claims testing using Selenium.

Full-Stack Developer Intern

Inblue Infotech Pvt Ltd

Jul 2024 – Sep 2024

Chennai, India

- Built full-stack features using React, Node.js, REST APIs, and MongoDB.
- Participated in code reviews and deployment workflows, improving development efficiency.

WORK PROJECTS

Zen AI

- Architected a production OCR and LLM pipeline using Azure Blob Storage, FastAPI, and GPT-4o mini to automate healthcare fax processing at scale.
- Designed secure PHI extraction and retrieval workflows with structured prompting for accurate, end-to-end agentic document processing.

PERSONAL PROJECTS

Code Visualization App

- Built a platform that parses codebases, generates dependency graphs, and improves developer navigation.
- Implemented a RAG-based retrieval layer using embeddings and natural-language code search.

En Passant – Chess Game

- Built a chess engine in Python with complete rule enforcement and game-state management.
- Integrated a Minimax AI with alpha-beta pruning and configurable difficulty levels.

Urimai – Civic Reporting Social Media App

- Developed a civic reporting platform enabling citizens to report local issues with geo-tagged posts, media uploads, and community upvoting.
- Built social feed, notification system, and authority dashboard for issue tracking and resolution workflows.

TECHNICAL SKILLS

Development: Python, FastAPI, Flask, React, Node.js, NumPy, Pandas, Scikit-learn

AI/ML: GPT-4o, Claude, TensorFlow, PyTorch, Agentic Workflows, RAG, OCR, NLP

Cloud & Data: Azure Blob Storage, MongoDB, Power BI, CI/CD, REST APIs, Selenium, QNXT, EDI 834

EDUCATION

Velammal Engineering College

B.Tech – Artificial Intelligence & Data Science

CGPA: 8.88

Chennai

2020–2024
